

**East Granby Board of Education
Curriculum Subcommittee Meeting Minutes for
Thursday, June 12, 2025**

Welcome: Marjorie Light, Director of Curriculum, called the meeting to order at 5:00 p.m.

Attendance: Members Present: Lisa Griffin, Amanda Cormier, and Lynn Landolina. Others Present: Marjorie Light, Director of Curriculum and PD

Old Business:

Marjorie reviewed the new course offerings at EGHS slated for 2025-2026, which we have discussed at prior meetings, and her intention to come before the BoE for approval on July 14, 2025. The courses are ECE Medical Terminology, ECE Business Mathematics, and AP Environmental. All three courses have set curricula through UCONN and/or The College Board. Marjorie will share the required syllabi with the Board of Education.

New Business:

Members requested that an overview of EGHS Online courses appear on the agenda. Marjorie explained how VHS started during COVID using ESSER funds for the medically compromised. Courses are taught by VHS faculty, who are approved in CT. After the pandemic, we used the seats to offer a common high school course that was not available at EGHS at the time, AP Physics (before we had a certified teacher). She explained how the limited seats can be used to help with issues such as scheduling conflicts, for a student who meets the criteria. It is used in special cases only, due to the cost per seat.

Adjournment:

There being no further business, the meeting was adjourned at 5:45 pm.
