INDEPENDENT AUDITOR'S REPORT

INDEPENDENT AUDITOR'S REPORT

To the Board of Finance
Town of East Granby, Connecticut

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of East Granby, Connecticut (the "Town"), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of East Granby, Connecticut, as of June 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 13 and the information on pages 52 through 58 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The combining and individual fund financial statements and schedules on pages 59 through 81 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 25, 2020, on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

TOWN OF EAST GRANBY, CONNECTICUT
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
AS OF AND FOR THE YEAR ENDED JUNE 30, 2019

As management of the Town of East Granby, Connecticut (the "Town"), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2019.

FINANCIAL HIGHLIGHTS

- The assets of the Town exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$27,817,748 (net position). Of this amount, \$939,508 represents the unrestricted net position of the Town.
- The Town's total net position decreased by \$792,495 during the current fiscal year.
- As of the close of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$3,869,563, a decrease of \$3,095,447 in comparison with the prior year.
- At the end of the current fiscal year, unassigned fund balance for the General Fund totaled \$3,696,954 or 16.3% of the Town's final budgetary expenditure appropriations for the fiscal year. Expressed another way, unassigned fund balance for the General Fund was sufficient to cover 1.95 months of General Fund operating expenditures.
- The Town's total capital assets increased by \$1,713,887 or 6.0% during the current fiscal year.
- The Town's total long-term bonded debt decreased by \$525,000 or 11.2% during the current fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Town's assets, deferred outflows and inflows of resources, and liabilities, with net position as the residual of these elements. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) (Continued)
AS OF AND FOR THE YEAR ENDED JUNE 30, 2019

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Government-wide Financial Statements (Continued)

The statement of activities presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements display information about the Town's governmental activities, which include general government, culture and recreation, public safety, public works, sanitation and education. The Town does not have any business-type activities.

The government-wide financial statements include only the Town itself because there are no legally separate organizations for which the Town is financially accountable.

The government-wide financial statements can be found on pages 14 and 15 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: governmental funds and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the Town's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Town's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains several individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, the Capital and Nonrecurring Fund, the Capital Bond Fund and the School Open Choice Fund, all of which are considered to be major funds. Data from the other remaining governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The basic governmental fund financial statements can be found on pages 16 through 19 of this report.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Fund Financial Statements (Continued)

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the Town government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to the Town's own programs. The accounting used for fiduciary funds is much like that used for government-wide financial statements.

The basic fiduciary fund financial statements can be found on pages 20 and 21 of this report.

Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 22 through 51 of this report.

Other Information

Required supplementary information and combining and individual fund statements and schedules and can be found on pages 52 through 81 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position

Over time, net position may serve as one measure of a government's financial position. Net position of the Town totaled \$27,817,748 as of June 30, 2019 and \$28,610,243 as of June 30, 2018 and is summarized as follows.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)

Net Position (Continued)

Of the Town's net position, 93.8% reflects its investment in capital assets, less any related debt used to acquire those assets that is still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

2.8% of the Town's net position is subject to external restrictions on how they may be used and are, therefore, presented as restricted.

The remainder of the Town's net position is considered unrestricted and may be used to meet the Town's ongoing obligations to citizens and creditors.

Overall, net position decreased by \$792,495.

Changes in Net Position (Continued)

Governmental activities decreased the Town's net position by \$792,495. Revenues generated by the Town decreased by \$1,345,541 or 4.9% and expenses for the Town decreased by \$840,124 or 3.0% in comparison to prior year.

A summary of items impacting revenues are as follows:

- A decrease in operating grants in the amount of \$2,163,606 due to a reduction in the amount of pension and OPEB expense recognized by the State of Connecticut in connection with the Town's participation in the Connecticut State Teachers' Retirement System.
- An increase in operating grants relating to \$267,125 in Small Cities funding restricted towards improvements to Metacomet Village, a low income housing complex.
- An increase in charges for services in the amount of \$239,773 relating to fees earned from the School District's open choice program.
- An increase in property taxes of \$519,506.

A summary of items impacting expenses are as follows:

- An increase in depreciation expense of \$696,675, which resulted in an overall increase in expenses for culture and recreation and public safety.
- A decrease in education expenses in the amount of \$2,163,606 due to a reduction in the amount of pension and OPEB expense recognized by the State of Connecticut in connection with the Town's participation in the Connecticut State Teachers' Retirement System.
- An increase in general government expenses relating to \$267,125 in improvements to Metacomet Village.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) (Continued)
AS OF AND FOR THE YEAR ENDED JUNE 30, 2019

FINANCIAL ANALYSIS OF THE TOWN'S FUNDS

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the Town's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$3,869,563, a decrease of \$3,095,447 in comparison with the prior year. The overall decrease in fund balances were driven by capital costs of \$2,908,102, which are expected to be funded through the issuance of long-term debt upon completion of the projects.

General Fund

The General Fund is the chief operating fund of the Town. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$3,696,954, while total fund balance was \$4,436,642. As a measure of the General Fund's liquidity, it may be useful to compare unassigned fund balance to total fund expenditures. Unassigned fund balance represents 16.3% of the Town's final budgetary expenditure appropriations for the fiscal year. Expressed another way, unassigned fund balance for the General Fund was sufficient to cover 1.95 months of General Fund operating expenditures. The fund balance of the General Fund increased by \$195,240 during the current fiscal year.

Capital and Nonrecurring Fund

The fund balance of the Capital and Nonrecurring Fund decreased by \$243,811 during the current fiscal year from \$1,483,375 to \$1,239,564. Significant capital costs consisted of the purchase of a backhoe and plow truck for the benefit of the public works department and the purchase of radios for the benefit of the Town's volunteer fire department. A complete detail of current year capital costs incurred is presented on page 65 of this report.

Capital Bond Fund

The Capital Bond Fund was established in the current year to account for the resources to be received and expended from the Town authorization in February 2019 for the planning, design, construction, reconstruction and improvements of various school and town building roofs, HVAC and electrical upgrades to its elementary school, and repair and pavement of town roads, parking lots and bridges. The Town deficit of \$2,906,302 as of June 30, 2019 has been subsequently funded through the issuance of general obligation bond anticipation notes. The Town intends to permanently finance the costs of the projects through the issuance of long-term debt upon substantial completion of the projects.

FINANCIAL ANALYSIS OF THE TOWN'S FUNDS (Continued)

School Open Choice Fund

The fund balance of the School Open Choice Fund increased by \$27,553 during the year ended June 30, 2019 from \$504,804 to \$532,357. This fund accounts for the resources received by the School District for the operation of the open choice program and is restricted for educational purposes.

GENERAL FUND BUDGETARY HIGHLIGHTS

The original budget for the year ended June 30, 2019 planned for the use of fund balance in the amount of \$555,724 to balance the budget. Additional appropriations from fund balance of \$61,572 were authorized. The actual change in fund balance on a budgetary basis totaled \$307,796, resulting in a favorable budgetary variance in the amount of \$925,092. Revenues and other financing sources exceeded budgetary estimates by \$723,597 and expenditures were less than budgetary estimates by \$201,495. The revenue surplus was derived from favorable variances on property tax collections, education cost sharing funds, fees from building permits and interest income on short-term investments. The expenditure surplus was derived from favorable variances across all departments.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The Town's investment in capital assets for its governmental activities as of June 30, 2019 totaled \$30,164,504 (net of accumulated depreciation). This investment in capital assets includes land and land improvements, buildings and improvements, machinery, equipment and furniture and fixtures, vehicles, and infrastructure. The Town's investment in capital assets increased \$1,713,887 or 6.0%.

The following table is a two year comparison of the investment in capital assets, net of accumulated depreciation:

	<u>2019</u>	<u>2018</u>
Land	\$ 3,571,922	\$ 3,571,922

Capital Assets (Continued)

Major capital asset events during the current fiscal year consisted of depreciation expense of \$1,863,012, offset by capital asset additions of \$3,576,899.

Significant capital asset additions consisted of Allgrove roof improvements in the amount of \$1,647,371 and road reconstruction in the amount of \$1,223,350.

Additional information on the Town's capital assets can be found in Note 3 of this report.

Long-term Debt

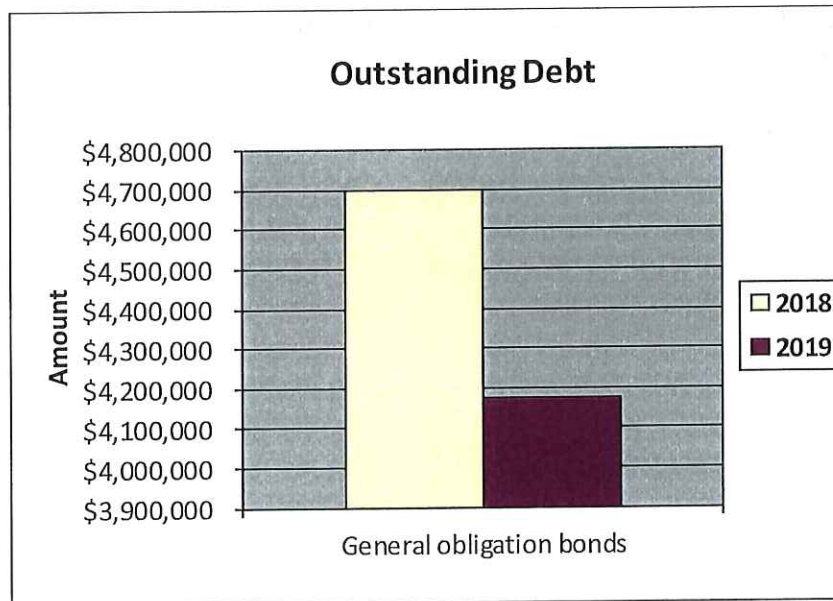

At the end of the current fiscal year, the Town had total bonded debt outstanding of \$4,700,000, all of which is backed by the full faith and credit of the government. The Town's total bonded debt decreased by \$525,000 or 11.2% during the current fiscal year due to scheduled debt service payments.

The Town maintains an "Aa2" rating from Moody's Investor Service for general obligation debt.

State statutes limit the amount of general obligation debt the Town may issue to seven times its annual receipts from taxation, as defined by the statutes. The current debt limitation for the Town is significantly in excess of the Town's outstanding general obligation debt.

The following is a two year comparison of long-term bonded debt:

	2019	2018
General obligation bonds	<u>\$ 4,175,000</u>	<u>\$ 4,700,000</u>

Additional information on the Town's long-term debt can be found in Note 6 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

A summary of key economic factors affecting the Town are as follows:

- Inflationary trends in the region approximate national indices.
- For purposes of calculating property tax revenues, the assessor's grand list is used along with an estimated tax rate and an estimated rate of collection, with deductions for payment in lieu of taxes to be paid by the State on-behalf of certain taxpayers.
- The Town receives a significant amount of municipal aid from the State of Connecticut. Potential cuts in funding could negatively impact the Town's mill rate and/or the types and quality of services provided to its citizens.

All of these factors were considered in preparing the Town's budget for fiscal year 2020.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the Town's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Office of the First Selectman, 9 Center Street, P.O. RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND

TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2019

Net change in fund balances - total governmental funds	\$	(3,095,447)
--	----	-------------

Total change in net position reported for governmental activities in the statement of activities is different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The amount by which depreciation and amortization expense exceeded capital outlays in the current period is as follows:

Expenditures for capital assets	\$ 3,576,899	
Depreciation and amortization expense	<u>(1,863,012)</u>	
Net adjustment		1,713,887

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal on long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. The net effect of these differences in the treatment of long-term obligations is as follows:

Principal repayments:		
Bonds payable	525,000	
Contract payable	<u>36,612</u>	
Net adjustment		561,612

Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the statement of activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is not recognized under the modified accrual basis of accounting until due, rather than as it accrues. The net effect of such items is as follows:

Accrued interest	2,634	
Amortization of bond premium	3,446	
Landfill post-closure care liability	12,745	
Early retirement incentives	11,054	
Compensated absences	(5,580)	
Total OPEB liability	93,270	
Deferred charges on total OPEB liability	<u>(163,399)</u>	
		(45,830)

Certain revenues reported in the statement of activities do not provide current financial resources and, therefore, are reported as unavailable revenues in the governmental funds. This amount represents the change in unavailable revenues.

TOWN OF EAST GRANBY, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
AS OF AND FOR THE YEAR ENDED JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Town of East Granby, Connecticut (the "Town") conform to accounting principles generally accepted in the United States of America, as applicable to governmental organizations. The following is a summary of significant accounting policies:

Financial Reporting Entity

History and Organization

The Town was formed under the Statutes of the State of Connecticut and is governed by an elected Board of Selectmen, a Board of Finance and through Town meetings. The Town provides general government, culture and recreation, public safety, public works, sanitation and education services.

The Board of Selectmen is the executive branch of the Town and is responsible for the administration of the Town. The legislative power, including enacting, amending or repealing ordinances and resolutions, is conducted through Town Meetings. The Board of Finance is responsible for financial and taxation matters as prescribed by Connecticut General Statutes and is responsible for presenting fiscal operating budgets for Town Meeting approval.

Accounting principles generally accepted in the United States of America require that the reporting entity include, the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The Town has determined that there are no agencies or entities, which should be presented within the Town's financial statements based on these criteria.

Related Organizations

The Town is a member of the Capitol Region Council of Governments ("CRCOG"), which is a voluntary Council of Governments formed to initiate and implement regional programs of benefit to member towns within the Greater Hartford region. CRCOG is governed by the chief elected officials of 38 Metro Hartford municipalities and the First Selectman of the Town serves on the governing Policy Board and the Executive Committee.

The Town is a member of the Farmington Valley Health District (the "Health District"), which provides food protection, environmental health, community health and emergency preparedness services to its ten member towns. The chairman of the Town's Board of Finance serves on the Health District's governing Board of Directors.

The Town is a member of the Materials Innovation Recycling Authority's (the "Authority") Connecticut Solid Waste System, which provides municipal solid waste and recycling services. The First Selectman of the Town serves on the Authority's governing Board of Directors.

Government-Wide and Fund Financial Statements

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the Town and include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions.

NOTES TO FINANCIAL STATEMENTS (Continued)
AS OF AND FOR THE YEAR ENDED JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Government-Wide and Fund Financial Statements (Continued)

Government-wide Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported as general revenues.

Fund Financial Statements

The fund financial statements provide information about the Town's funds, including its fiduciary funds. Separate statements for each fund category - governmental and fiduciary - are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The Town reports the following major governmental funds:

General Fund - This fund is the Town's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Capital and Nonrecurring Fund - This fund accounts for financial resources used for the financing of the planning, construction, reconstruction or acquisition of any specific capital improvement or the acquisition of specific equipment and capital additions.

Capital Bond Fund - This fund accounts for the financial resources and expenditures related to the Town's authorization in February 2019 for the planning, design, construction, reconstruction and improvements of various school and town building roofs, HVAC and electrical upgrades to its elementary school, and repair and pavement of town roads, parking lots and bridges.

School Open Choice Fund - This fund accounts for open choice revenues restricted to expenditures for educational purposes.

In addition, the Town reports the following fiduciary fund types:

Pension Trust Funds - These funds are used to account for the activities of the Town's defined contribution retirement plans, which accumulate resources for retirement benefit payments to qualified employees.

Private Purpose Trust Fund - This fund type is used to account for trust arrangements under which principal and income benefit individuals. The Town utilizes a private purpose trust fund to account for student scholarships.

Agency Funds - These funds are used to account for resources held by the Town in a purely custodial capacity.

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

TOWN OF EAST GRANBY, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS *(Continued)*
AS OF AND FOR THE YEAR ENDED JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Measurement Focus and Basis of Accounting *(Continued)*

The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Agency Funds have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are prepared using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are susceptible to accrual, that is, when they are both measurable and available. Revenues are considered to be available if they are collected within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues in the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received or available to be received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when the cash is received.

The pension trust funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities.

Implementation of Accounting Standards

Effective July 1, 2018, the Town adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 88, *Certain Disclosures Related to Debt, including Borrowings and Direct Placements*. This Statement defines debt for purposes of disclosure in notes to the financial statements as a liability (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established. This Statement requires that additional essential information related to debt be disclosed in notes to financial statements, including lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses. For notes to financial statements related to debt, this Statement also requires that existing and additional information be provided for direct borrowings and direct placements of debt separately from other debt. The adoption of this statement did not have a material effect on the Town's financial statements.

Effective July 1, 2018, the Town adopted the provisions of GASB Statement No. 83, *Certain Asset Retirement Obligations*. GASB Statement No. 83 addresses accounting and financial reporting for certain asset retirement obligations (AROs). The Statement established criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs. The adoption of this statement did not have a material effect on the Town's financial statements.

NOTES TO FINANCIAL STATEMENTS (Continued)
AS OF AND FOR THE YEAR ENDED JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities, Deferred Outflows and Inflows of Resources and Net Position/Fund Equity

Cash and Cash Equivalents

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments

Investments are measured by the Town at fair value (generally based on quoted market prices), except for investments in certain external investment pools and insurance contracts as described below.

Investments in certain external investment pools consist of the Short-Term Investment Fund (STIF), which is managed by the State of Connecticut Treasurer's Office. Investments in STIF, which is permitted to measure its investment holdings at amortized costs, are measured by the Town at the net asset value per share as determined by the pool.

Investments in insurance contracts are measured by the Town at contract value, which approximates fair value.

Donor-restricted Endowments

The Town is a beneficiary of the Richard Dudley Seymour Charitable Trust, an irrevocable perpetual charitable support trust ("CST"). Under the CST, the Town receives 25% of the total annual income of the CST for the purpose of maintaining the upkeep of the Holcomb Cemetery.

The Town allocates investment income on endowment investments in accordance with donor restrictions and Connecticut law. The State of Connecticut adopted the provisions of the Uniform Prudent Management of Institutional Funds Act (UPMIFA) effective October 1, 2007. UPMIFA requires the investment of endowments in good faith and with the care that an ordinarily prudent person in a like position would exercise under similar circumstances. It requires prudence in incurring investment costs, authorizing only costs that are appropriate and reasonable. Factors to be considered in investing are expanded to include, for example, the effects of inflation. UPMIFA emphasizes that investment decisions be made in relation to the overall resources of the Town.

Inventories and Prepaid Items

Inventories, if any, are reported at cost using the first-in first-out (FIFO) method. Inventories are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

AS OF AND FOR THE YEAR ENDED JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities, Deferred Outflows and Inflows of Resources and Net Position/Fund Equity (Continued)

Property Taxes

Property taxes are assessed as of October 1 and are levied on the following July 1. Real estate and personal property taxes are due in two installments, July 1 and the following January 1. Motor vehicle taxes are payable on July 1 and supplemental motor vehicle taxes are payable on January 1. Taxes become delinquent thirty days after the installment is due and liens are filed on delinquent real estate taxes within one year. Liens are effective on the assessment date and are continued by filing before the end of the year following the due date. Based on historical collection experience and other factors, the Town has established an allowance for uncollectible taxes and interest of \$77,000 and \$98,000, respectively, as of June 30, 2019.

Sewer Usage Charges

Usage charges are billed either annually or semi-annually depending upon the bill amount. Usage charges are due and payable within thirty days and delinquent amounts are subject to interest at prevailing rates.

Capital Assets

Capital assets, which include property, equipment, and infrastructure assets (e.g. roads, bridges, and sidewalks), are reported in the government-wide financial statements. Capital assets are defined by the Town as assets with an initial individual cost of more than \$5,000 and an estimated useful life of more than two years. Such assets are recorded at historical cost, or estimated historical cost, if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of a capital asset or materially extend capital asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets of the Town are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Land improvements	20
Buildings and improvements	20-40
Machinery, equipment, furniture and Fixtures	5-10
Vehicles	8
Infrastructure	20-50

Unearned Revenue

This liability represents resources that have been received but not yet earned.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Assets, Liabilities, Deferred Outflows and Inflows of Resources and Net Position/Fund Equity *(Continued)*

Deferred Outflows and Inflows of Resources

Deferred outflows and inflows of resources represent a consumption or an acquisition of net position that applies to a future period(s) and so will not be recognized as an outflow or inflow of resources until that time.

The Town reports unavailable revenues from property taxes, sewer usage charges, and related interest in the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The Town also reports deferred charges on OPEB expense in the government-wide statement of net position, which resulted from differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in OPEB expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits.

Compensated Absences and Early Retirement Incentives

Employees are granted vacation and sick leave pursuant to Town policies and terms negotiated in union contracts. For Town employees, unused vacation and sick days can be accumulated from year to year up to certain limits. For Board of Education employees, only unused vacation days can be accumulated from year to year up to certain limits. Certain Board of Education personnel are also eligible for certain retirement incentives that are paid out over time.

All compensated absences and early retirement incentives are accrued when incurred in the government-wide financial statements. Expenditures for compensated absences and early retirement incentives are recognized in the governmental fund financial statements in the current year to the extent they are paid during the year, or the vested amount is expected to be paid with available resources.

Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expenses when incurred.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Assets, Liabilities, Deferred Outflows and Inflows of Resources and Net Position/Fund Equity *(Continued)*

Net Position and Fund Balances

The statement of net position presents the Town's assets, deferred outflows and inflows of resources, and liabilities, with net position as the residual of these elements. Net position is reported in three categories:

Net investment in capital assets - This component of net position consists of capital assets, net of accumulated depreciation and amortization and reduced by outstanding balances for bonds, notes and other debt that are attributed to the acquisition, construction or improvement of capital assets.

Restricted net position - This component of net position consists of amounts whose use is restricted either through external restrictions imposed by creditors, grantors, contributors, and the like, or through restrictions imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position - This component of net position is the net amount of assets, liabilities, and deferred outflows and inflows of resources, which do not meet the definition of the preceding two categories.

The Town's governmental funds report the following fund balance categories:

Nonspendable - Amounts that cannot be spent because they are not in spendable form or they are legally or contractually required to be maintained intact.

Restricted - Constraints placed on the use of resources that are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments, or imposed by law through enabling legislation.

Committed - Amounts can be only used for specific purposes pursuant to constraints imposed by formal action by the Town and cannot be used for any other purpose unless the Town removes or changes the specified use by taking the same formal action.

Assigned - Amounts are constrained by the Town's intent to be used for specific purposes, but are not restricted or committed. Amounts may be constrained to be used for a specific purpose by a governing board or body or official that has been delegated authority to assign amounts by Connecticut General Statutes and include the First Selectman and the Treasurer.

Unassigned - Residual classification for the General Fund or amounts necessary in other governmental funds to eliminate otherwise negative fund balance amounts in the other four categories.

Net Position Flow Assumption

Sometimes the Town will fund outlays for a particular purpose from both restricted (e.g. restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

The Town considers restricted net position to have been depleted before unrestricted net position is applied.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities, Deferred Outflows and Inflows of Resources and Net Position/Fund Equity (Continued)

Net Position and Fund Balances (Continued)

Fund Balance Flow Assumption

Sometimes the Town will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied.

When committed, assigned and unassigned resources are available for use, it is assumed that the Town will use committed resources first, then assigned resources and then unassigned resources as they are needed.

Interfund Activities

Interfund activities are reported as follows:

Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portion of interfund loans) or "advances to/from other funds" (i.e. the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds".

Advances between funds, as reported in the fund financial statements, are offset by a restricted fund balance designation (non-spendable) in the General Fund and by a restricted, committed, or assigned fund balance designation of other governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Interfund Services Provided and Used

Sales and purchases of goods and services between funds for a price approximating their external exchange value are reported as revenues and expenditures, or expenses, in the applicable funds.

Interfund Transfers

Interfund transfers represent flows of assets without equivalent flows of assets in return and without a requirement for repayment. In governmental funds, transfers are reported as other financing uses in the funds making transfers and other financing sources in the funds receiving transfers.

Interfund Reimbursements

Interfund reimbursements represent repayments from the funds responsible for particular expenditures or expenses to the funds that initially paid for them.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

NOTE 2 - CASH DEPOSITS AND INVESTMENTS

Cash Deposits

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the Town will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Town does not have a deposit policy for custodial credit risk. As of June 30, 2019, the carrying amount of the Town's cash deposits totaled \$3,416,249. As of June 30, 2019, \$3,200,258 of the Town's bank balance of \$3,932,065 was exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$ 2,880,232
Uninsured and collateralized with securities held by the pledging bank's trust department or agent but not in the Town's name	<u>320,026</u>
	<u><u>\$ 3,200,258</u></u>

All of the Town's deposits were in qualified public institutions as defined by Connecticut state statute. Under this statute, any bank holding public deposits must at all times maintain, segregated from its other assets, eligible collateral in an amount equal to a certain percentage of its public deposits. The applicable percentage is determined based on the bank's risk-based capital ratio. The amount of public deposits is determined based on either the public deposits reported on the most recent quarterly call report, or the average of the public deposits reported on the four most recent quarterly call reports, whichever is greater. The collateral is kept in the custody of the trust department of either the pledging bank or another bank in the name of the pledging bank.

A reconciliation of the Town's cash deposits as of June 30, 2019 is as follows:

Cash and cash equivalents:	
Government-wide statement of net position	\$ 6,645,292
Statement of fiduciary net position	<u>368,262</u>
	7,013,554
Add: certificates of deposit considered cash deposits for disclosure purposes	40,455
Less: cash equivalents considered investments for disclosure purposes	<u>(3,637,760)</u>
Total cash deposits	<u><u>\$ 3,416,249</u></u>

NOTE 2 - CASH DEPOSITS AND INVESTMENTS (Continued)

Investments

A reconciliation of the Town's investments as of June 30, 2019 is as follows:

Investments:	
Statement of fiduciary net position	\$ 3,168,754
Add: cash equivalents considered investments for disclosure purposes	3,637,760
Less: certificates of deposit considered cash deposits for disclosure purposes	<u>(40,455)</u>
	<u>\$ 6,766,059</u>

As of June 30, 2019, the Town's investments consisted of the following:

<u>Investment type</u>	<u>Valuation Basis</u>	<u>Credit Rating</u>	<u>Value</u>	<u>Investment Maturities (In Years) Less Than 1</u>
Debt Securities:				
<i>Governmental Activities:</i>				
Short-term Investment Fund (STIF)	Net asset value	AAA	<u>\$ 3,637,760</u>	<u>\$ 3,637,760</u>
Other investments:				
<i>Fiduciary Funds:</i>				
Insurance contracts	Contract value	N/A	<u>3,128,299</u>	
Total			<u>\$ 6,766,059</u>	

Because investments in the Short-term Investment Fund have weighted average maturities of less than 90 days, they have been presented as investments with maturities of less than one year.

Interest Rate Risk

The Town does not have a formal investment policy that limits Town investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of a counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town does not have a policy for custodial credit risk. The Town's investments in external investment pools and insurance contracts are not evidenced by securities and are therefore not exposed to custodial credit risk.

Concentrations of Credit Risk

The Town places no limit on the amount of investment in any one issuer. As of June 30, 2019, 100.0% of the Town's governmental activities investments were invested in the Short-term Investment Fund, which is managed by the State of Connecticut Office of the Treasurer.

TOWN OF EAST GRANBY, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS (Continued)
AS OF AND FOR THE YEAR ENDED JUNE 30, 2019

NOTE 2 - CASH DEPOSITS AND INVESTMENTS (Continued)

Credit Risk

The Town has no investment policy that would further limit its investment choices beyond those already limited by Connecticut state statutes. Connecticut state statutes permit the Town to invest in: (1) obligations of the United States, including its instrumentalities and agencies; (2) in obligations of any state or of any political subdivision, authority or agency thereof, provided such obligations are rated within one of the top two rating categories of any recognized rating service; (3) in shares or other interests in custodial arrangements or pools maintaining constant net asset values and in highly rated no-load open end money market and mutual funds (with constant or fluctuating net asset values) whose portfolios are limited to obligations of the United States and its agencies, and repurchase agreements fully collateralized by such obligations; (4) or in obligations of the State of Connecticut or of any political subdivision thereof, provided such obligations are rated within one of the top three rating categories of any recognized rating service. Other provisions of the statutes cover specific municipal funds with particular investment authority.

The Town's investments in debt securities consist of the Short-Term Investment Fund, which was rated as AAA by Standard & Poor's as of June 30, 2019.

	Nonmajor Governmental Funds	8,929
		<u>641,600</u>
Total interfund receivables/payables		<u>\$ 3,228,514</u>

The above balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

NOTE 5 - INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2019 consisted of the following:

Transfers In	Transfers Out	Amount
Governmental Funds		
Capital and Nonrecurring Fund	General Fund	\$ 625,000
Nonmajor Governmental Funds	General Fund	48,510
Total transfers		<u>\$ 673,510</u>

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them, to the fund that statute or budget requires to expend them, and (2) use revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 6 - LONG-TERM DEBT

The applicable accounting standards define debt as a liability that arises from a contractual obligation to pay cash, or other assets that may be used in lieu of cash, in one or more payments to settle an amount that is fixed at the date the contractual obligation is established. For disclosure purposes, debt does not include accounts payable or leases, except for contracts reported as financed purchase of the underlying asset.

The following is a summary of changes in long-term debt for the year ended June 30, 2019:

Governmental Activities	Beginning Balance	Increases	Decreases	Ending Balance	Due Within One Year
Bonds payable:					
General obligation bonds	\$ 4,700,000	\$ -	\$ (525,000)	\$ 4,175,000	\$ 525,000

General Obligation Bonds (Continued)

Legal Debt Limit

Connecticut General Statutes Section 7-374(b) provides that authorized debt of the Town shall not exceed seven times base receipts, as defined in the Statute. Further, the Statute limits the amount of debt that may be authorized by the Town for general purposes, schools, sewers, urban renewal and pension deficit. The Town did not exceed any of the statutory debt limitations at June 30, 2019.

Authorized, Unissued Debt

As of June 30, 2019, the Town had authorized but unissued bonds totaling \$9,951,000 for the planning, design, construction, reconstruction and improvements of various school and town building roofs, HVAC and electrical upgrades to its elementary school, and repair and pavement of town roads, parking lots and bridges (see Note 13).

Direct Borrowings - Contracts Payable

The Town has entered into contracts with a vendor for the installation of energy efficient lighting upgrades. The costs to the Town of \$177,506, net of discounts of \$69,757, are payable in fixed monthly installments to the vendor.

Future annual contract payments are as follows as of June 30, 2019:

Year ending June 30:	Governmental Activities		
	Contracts Payable		
	Principal	Interest	Total
2020	\$ 36,612	\$ -	\$ 36,612

Landfill Post-closure Care Liability

The Town landfill has been closed. State and federal laws and regulations require landfill closures to meet certain standards. Monitoring costs for the next 3 years are estimated to be \$38,235. This amount is based on estimates, which are subject to change due to inflation, technology or applicable laws and regulations.

NOTE 8 - FUND BALANCE

As of June 30, 2019, nonspendable, restricted, committed and assigned fund balance for other purposes consists of the following:

	General Fund	Capital and Nonrecurring Fund	Capital Bond Fund	School Open Choice Fund	Nonmajor Governmental Funds	Total

Deficit Fund Balance

The Sewer Use Fund has a deficit fund balance of \$224,990 as of June 30, 2019. This deficit is partially attributed to timing differences between when usage charges are billed and collected. Usage charges for the six month period ending June 30 are billed during the following October. Accordingly, the deficit will be partially eliminated in this fund when unavailable revenues of \$146,925 as of June 30 become available. The remaining deficit will be eliminated through future increases in usage charges.

The Capital Bond Fund has a deficit fund balance of \$2,906,302. This deficit is due to the use of General Fund working capital to fund authorized projects. This deficit will be eliminated through the issuance of long-term debt in future years.

NOTE 9 - RETIREMENT PLANS

Defined Contribution Money Purchase Retirement Plans

Plan Descriptions

Effective September 1, 1978, East Granby established separate defined contribution money purchase plans for general government employees and Board of Education employees respectively. These types of plans provide retirement benefits in return for services rendered, an individual account for each participant, and specifies how contributions to the individual's account are to be determined instead of specifying the amount of benefits the individual is to receive. Under a defined contribution retirement plan, the benefits a participant will receive depend solely on the amount contributed to the participant's account and the returns earned on investments of those contributions.

The Plans cover all Town and Board of Education employees not covered by the State of Connecticut's Teachers' Retirement System who have completed one year of service. Town contributions vary based on designated employee classes. Eligible Board of Education employees who contribute 2.0% of compensation receive a Town contribution of 5.0%. Eligible Town employees who contribute 2.0% of compensation receive a Town contribution of either 3.0% or 4.0% depending on the employees position. In addition, Town employees that contribute an additional 3.0% of compensation receive an additional Town contribution of 3.0%. Plan participants are not required to contribute to the Plan. Contributions made by a participant vest immediately and contributions made by the Town vest after five years of service.

The Plans do not issue stand alone financial statements and are part of the Town's financial reporting entity since the Town has trustee responsibilities related to the participant accounts which contain employer contributions. As such, the Plans are accounted for in the fiduciary fund financial statements as pension trust funds.

The Plans are accounted for using the accrual basis of accounting. Town contributions are recognized when due and the Town has made a formal commitment to provide contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plans. Investments consists of insurance contracts and are reported at contract value, which approximates fair value.

Employer contributions totaled \$101,717 and employee contributions totaled \$46,884 for the Town Plan for year ended June 30, 2019.

Employer contributions totaled \$34,557 and employee contributions totaled \$37,459 for the Board of Education Plan for year ended June 30, 2019.

Connecticut State Teachers' Retirement System

Plan Description

The faculty and professional personnel of the Town's Board of Education participates in the State of Connecticut's Teachers' Retirement System ("TRS"), which is a cost sharing multiple-employer defined benefit pension plan that provides retirement, disability, survivorship and health insurance benefits to plan members and their beneficiaries. The TRS is governed by Connecticut General Statute ("CGS") *Title 10, Chapter 167a* and is administered by the Connecticut State Teachers' Retirement Board (the "Board"). The TRS is included as a fiduciary pension trust fund in the State of Connecticut's Comprehensive Annual Financial Report and the Board issues publicly available financial reports.

Benefit Provisions

The plan provides retirement, disability and death benefits. Employees are eligible to retire at age 60 with 20 years of credited service in Connecticut, or 35 years of credited service including at least 25 years of service in Connecticut.

Normal Retirement: Retirement benefits for the employees are calculated as 2.0% of the average annual salary times the years of credited service (maximum benefit is 75.0% of average annual salary during the 3 years of highest salary). In addition, amounts derived from the accumulation of the 6.0% contributions made prior to July 1, 1989 and voluntary contributions are payable.

Early Retirement: Employees are eligible after 25 years of credited service with a minimum of 20 years of Connecticut service, or age 55 with 20 years of credited service with a minimum of 15 years of Connecticut service. Benefit amounts are reduced by 6.0% per year for the first 5 years preceding normal retirement age and 4.0% per year for the next 5 years preceding normal retirement age. Effective July 1, 1999, the reduction for individuals with 30 or more years of service is 3.0% per year by which retirement precedes normal retirement date.

Minimum Benefit: Effective January 1, 1999, Public Act 98-251 provides a minimum monthly benefit of \$1,200 to teachers who retire under the normal retirement provisions and who have completed at least 25 years of full time Connecticut service at retirement.

Disability Retirement: Employees are eligible for service-related disability benefits regardless of length of service. Five years of credited service is required to be eligible for non-service related disability. Disability benefits are calculated as 2% per year of service times the average of the highest three years of pensionable salary, as defined per the Plan, but not less than 15%, nor more than 50%. In addition, disability benefits under this plan (without regard to cost-of-living adjustments) plus any initial award of Social Security benefits and workers' compensation cannot exceed 75% of average annual salary. A plan member who leaves service and has attained 10 years of service will be entitled to 100% of the accrued benefit as of the date of termination of covered employment. Benefits are payable at age 60, and early retirement reductions are based on the number of years of service the member would have had if they had continued work until age 60.

Pre-Retirement Death Benefit: The plan also offers a lump-sum return of contributions with interest or surviving spouse benefit depending on length of service.

Contributions

Per CGS 10-183z, contribution requirements of active employees and the State are amended and certified by the Board and appropriated by the General Assembly. The contributions are actuarially determined as an amount that, when combined with employee contributions and investment earnings, is expected to finance the costs of the benefits earned by employees during the year, with any additional amounts to finance any unfunded accrued liability.

In accordance with CGS Section 10-183z, the Town does not and is not legally responsible to contribute to the plan as a special funding situation exists that requires the State to contribute 100% of an employer's contributions on-behalf of its participating municipalities at an actuarially determined rate. Active employees are required to contribute 7.0% of their annual earnings to the plan.

Administrative Expenses

Administrative costs of the plan are funded by the State.

Basis of Presentation

The collective net pension liability, deferred outflows and inflows of resources, and pension expense for the TRS has been measured as of June 30, 2018 based on an actuarial valuation performed as of June 30, 2018. Since the Town does not contribute directly to the TRS, the Town does not recognize its proportionate share of these amounts in its financial statements. The information determined as of the June 30, 2018 measurement date for the TRS has been utilized by the Town for reporting on-behalf revenues, expenditures and expenses for the year ended June 30, 2019 and for reporting the proportionate share of the collective net pension liability that is attributed to the Town as of June 30, 2019.

Allocation Methodology

The schedule of employer allocations for the TRS was calculated based upon the fiscal year 2018 expected contribution effort for each participating employer. The employer allocations were then applied to the net pension liability and pension expense to determine the amount applicable to each employer. For fiscal year 2018, the Town's expected contribution effort for allocation purposes totaled \$2,542,968 or 0.20% of the total expected contribution effort. The Town has recognized this amount as an on-behalf payment into the TRS as intergovernmental revenues and related education expenditures of the General Fund for the year ended June 30, 2018.

The components associated with the collective pension expense and deferred inflows and outflows of resources for the TRS have been determined based on the fiduciary net position as audited by the State of Connecticut Auditors of Public Accounts as part of the State of Connecticut's Comprehensive Annual Financial Report as of and for the year ended June 30, 2018. The portion of the collective pension expense allocated to the Town totaled \$2,953,024. The Town has recognized this amount as an operating contribution and related education expense of the governmental activities for the year ended June 30, 2019.

The total collective net pension liability of participating employers for the TRS was approximately \$13.164 billion as of the June 30, 2018 measurement date. The portion attributed to the Town totaled \$26,312,000 or approximately 0.20% of the total collective net pension liability.

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of June 30, 2018 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increase	3.25-6.50%, including inflation
Investment rate of return	8.00%, net of pension plan investment expense, including inflation
Administrative expenses	\$0 assumption as expenses are paid for by the General Assembly

Mortality rates were based on the RPH-2014 White Collar table with employee and annuitant rates blended from ages 50 to 80, projected to the year 2020 using the BB improvement scale.

Future cost-of-living increases for teachers who retired prior to September 1, 1992, are made in accordance with increases in the Consumer Price Index, with a minimum of 3% and a maximum of 5% per annum. For teachers who were members of the Teachers' Retirement System before July 1, 2007, and retire on or after September 1, 1992, pension benefit adjustments are made that are consistent with those provided for Social Security benefits on January 1 of the year granted, with a maximum of 6% per annum. If the return on assets in the previous year was less than 8.5%, the maximum increase is 1.5%. For teachers who were members of the Teachers' Retirement System after July 1, 2007, pension benefit adjustments are made that are consistent with those provided for Social Security benefits on January 1 of the year granted, with a maximum of 5% per annum. If the return on assets in the previous year was less than 11.5%, the maximum increase is 3%, and if the return on the assets in the previous year was less than 8.5%, the maximum increase is 1.0%.

Long-Term Rate of Return

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the plan's target asset allocation are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Large Cap U.S. Equities	21.0%	5.8%
Developed Non-U.S. Equities	18.0%	6.6%
Emerging Markets (Non-U.S.)	9.0%	8.3%
Real Estate	7.0%	5.1%
Private Equity	11.0%	7.6%
Alternative investments	8.0%	4.1%
Fixed Income (Core)	7.0%	1.3%
High Yield Bonds	5.0%	3.9%
Emerging Market Bonds	5.0%	3.7%
Inflation Linked Bonds	3.0%	1.0%
Cash	6.0%	0.4%

Discount Rate

The discount rate used to measure the total pension liability was 8.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the State contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Proportionate Share of the Collective Net Pension Liability

The following presents the proportionate share of the collective net pension liability attributed to the Town as of the June 30, 2018 measurement date, calculated using a discount rate of 8.00%, as well as what the proportionate share of the net pension liability attributed to the Town would be if it were calculated using a discount rate that is 1-percentage point lower (7.00%) or 1-percentage-point higher (9.00%) than the current rate:

	<u>1% Decrease (7.00%)</u>	<u>Current Discount (8.00%)</u>	<u>1% Increase (9.00%)</u>
Proportionate share of the net pension liability attributed to the Town	\$ 33,254,000	\$ 26,312,000	\$ 20,442,000

Deferred Compensation Plan

The Town offers employees who are eligible for benefits a deferred compensation plan in accordance with Internal Revenue Code Section 457. Deferred compensation is not available to participants until termination, retirement, death, or unforeseeable emergency. All amounts of compensation deferred under the plans, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights are held in trust for the exclusive benefit of the plan participants and their beneficiaries. The Town has no trustee or other fiduciary responsibilities related to participant accounts and therefore the plan is not accounted for in the fiduciary fund financial statements of the Town.

Board of Education Plan

Plan Descriptions

The Town's Board of Education administers a single-employer defined benefit healthcare plan (the "Plan"). The Plan provides healthcare and dental insurance benefits for all eligible Board of Education retirees and their spouses through the Board of Education's group healthcare and dental insurance plans. Benefits provisions are established by contract and may be amended by union negotiations each three-year bargaining period. The Plan does not issue a publicly available financial report and is not included in the financial statements of another entity.

Benefits Provided

The OPEB Plan provides for medical, prescription, dental and life insurance benefits to eligible retirees, spouses and beneficiaries. Contribution requirements of the participants and the Town are established by and may be amended through negotiations between the Town and the union representing the employees.

Under provisions of certain union negotiated contracts, the Town will contribute 25.0% of the health care premiums for the first three years of the employee's retirement, provided the employee notifies the Town prior to January 1st of the year in which they retire. Administrators' have a similar arrangement, but the Town will contribute 90.0% of the health care premiums for the first four years. Otherwise, participants are required to contribute 100% of their healthcare and dental premiums to the Town, less any reimbursements received by the Town from the State Retirement Board.

Teachers - The Town contributes 25.0% of the cost of insurance for teachers with 25 years of service for three years following retirement. Thereafter, the retiree contributes 100.0% of the cost, less any reimbursements received by the Town from the State Teachers' Retirement Board. Teachers with less than 25 years of service at retirement pay 100.0% of the cost, less any reimbursements received by the Town from the State Teachers' Retirement Board.

Administrators - Retirees with 15 or more years of service contribute 21.5% of the PPO, 25.0% of the dental insurance costs and 18.0% of the HMO/HSA insurance costs. The Town contributes the remaining percentage of the costs for three years (four years through June 30, 2015) following retirement. Thereafter, the retiree contributes 100.0%. Retirees with 10 or more years of service contribute 50.0% of the medical and dental insurance costs. The Town contributes the remaining percentage of the cost for three years following retirement. Thereafter, the retiree contributes 100.0%. NCE - The retiree contributes 75.0% of the cost for medical and dental insurance. The Town contributes the remaining percentage of the cost for three years following retirement. Thereafter, the retiree contributes 100.0%.

The Town pays the benefits on a pay-as-you-go basis.

Employees Covered by Benefit Terms

As of July 1, 2018, the valuation date, the following employees were covered by the benefit terms:

Total OPEB Liability

The Town's total OPEB liability reported as of June 30, 2019 totaled \$1,930,903. The total OPEB liability was measured as of June 30, 2019 using an actuarial valuation performed as of July 1, 2018.

Actuarial Assumptions and Other Inputs - The total OPEB liability as of June 30, 2019 was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Valuation date:	July 1, 2018
Actuarial cost method:	Entry Age Normal Cost
Actuarial assumptions:	
Discount rate	3.50%
Inflation rate	2.75%
Healthcare cost trend rate	6.20% initial 4.40% final

The discount rate was based on the Bond Buyer 20 (GO 20 Index) as of the measurement date, which represents municipal bond trends based on a portfolio of 20 general obligation bonds that mature in 20 years.

Mortality rates were based on the RPH-2014 White Collar table with employee and annuitant rates blended from ages 50 to 80 projected to the year 2020 using the BB improvement scale and further adjusted to grade in increases (5% for females and 8% for males) to rates over age 80.

Assumptions regarding participation and coverage election relating to benefits provided to Teachers and Board of Education Administrators are as follows:

- 80% of teachers and administrators and 10% of all others active members are assumed to elect coverage at retirement. Beyond the period of BOE-subsidized benefits after retirement, 50% of retirees are assumed to elect coverage at retirement.
- 50% of current active teachers and administrators and pre-65 retirees are assumed either to enroll in retiree health coverage through the Connecticut State Teachers Retirement System at age 65, or transfer to a Medicare Supplement Plan. 95% of current actives and pre-65 retirees are assumed to be Medicare eligible. All other current actives and pre-65 retirees are assumed to be covered under a Medicare Supplement plan at age 65.

Connecticut State Teachers' Retirement System

Plan Description

The faculty and professional personnel of the Town's Board of Education participates in the State of Connecticut's Teachers' Retirement System ("TRS"), which is a cost sharing multiple-employer defined benefit pension plan that provides retirement, disability, survivorship and health insurance benefits to plan members and their beneficiaries. The TRS is governed by Connecticut General Statute ("CGS") *Title 10, Chapter 167a* and is administered by the Connecticut State Teachers' Retirement Board (the "Board"). The OPEB trust fund is included in the TRS, and the TRS is included in the State of Connecticut audit as a pension trust fund.

Benefit Provisions

The Plan covers retired teachers and administrators of public schools in the State who are receiving benefits from the Plan. The Plan provides healthcare insurance benefits to eligible retirees and their spouses. Any member that is currently receiving a retirement or disability benefit through the Plan is eligible to participate in the healthcare portion of the Plan. Subsidized Local School District Coverage provides a subsidy paid to members still receiving coverage through their former employer and the TRB Sponsored Medicare Supplemental Plans provide coverage for those participating in Medicare, but not receiving Subsidized Local School District Coverage.

NOTE 10 - OTHER POST-EMPLOYMENT BENEFITS (OPEB) (Continued)

Connecticut State Teachers' Retirement System (Continued)

Benefit Provisions (Continued)

Any member that is not currently participating in Medicare Parts A & B is eligible to continue health care coverage with their former employer. A subsidy of up to \$110 per month for a retired member plus an additional \$110 per month for a spouse enrolled in a local school district plan is provided to the school district to first offset the retiree's share of the cost of coverage, any remaining portion is used to offset the district's cost. The subsidy amount is set by statute, and has not increased since July of 1996. A subsidy amount of \$220 per month may be paid for a retired member, spouse or the surviving spouse of a member who has attained the normal retirement age to participate in Medicare, is not eligible for Part A of Medicare without cost, and contributes at least \$220 per month towards coverage under a local school district plan.

Any member that is currently participating in Medicare Parts A & B is eligible to either continue health care coverage with their former employer, if offered, or enroll in the plan sponsored by the System. If they elect to remain in the plan with their former employer, the same subsidies as above will be paid to offset the cost of coverage.

If a member participating in Medicare Parts A & B so elects, they may enroll in one of the CTRB Sponsored Medicare Supplemental Plans. Active members, retirees, and the State pay equally toward the cost of the basic coverage (medical and prescription drug benefits).

Employees are eligible to retire at age 60 with 20 years of credited service in Connecticut, or 35 years of credited service including at least 25 years of service in Connecticut.

Contributions

Per CGS 10-183z, which reflects Public Act 79-436 as amended), contribution requirements of active employees and the State of Connecticut are amended and certified by the TRB and appropriated by the General Assembly. The State pays for one third of plan costs through and annual appropriation in the General Fund. School district employers are not required to make contributions to the Plan.

The cost of providing plan benefits is financed on a pay-as-you-go basis as follows: active teachers' pay for one third of the Plan costs through a contribution of 1.25% of their pensionable salaries, and retired teachers pay for one third of the Plan costs through monthly premiums, which helps reduce the cost of health insurance for eligible retired members and dependents.

Contributions remitted by the State are recognized when legally due, based upon statutory requirements.

Administrative Expenses

Administrative costs of the Plan are to be paid by the General Assembly per Section 10-183r of the Connecticut General Statutes.

Basis of Presentation

The collective net OPEB liability, deferred outflows and inflows of resources, and OPEB expense for the TRS has been measured as of June 30, 2018 based on an actuarial valuation performed as of June 30, 2018. Since the Town does not contribute directly to the TRS, the Town does not recognize its proportionate share of these amounts in its financial statements. The information determined as of the June 30, 2018 measurement date for the TRS has been utilized by the Town for reporting on-behalf revenues, expenditures and expenses for the year ended June 30, 2019 and for reporting the proportionate share of the collective net OPEB liability that is attributed to the Town as of June 30, 2019.

The components associated with the OPEB expense and deferred inflows and outflows of resources have been determined using the unrecognized portions of each year's experience and assumption changes for the year ended June 30, 2018.

Allocation Methodology

The schedule of allocations have been prepared to provide the total amount of employer contributions from the State and the proportionate share percentages that have been determined based on these contributions. Based on these percentages the proportionate share amounts of the net OPEB liability associated with each participating employer and the employer OPEB expense and revenue for State support for each participating employer for the year ending June 30, 2018.

For fiscal year 2018, the Town's expected contribution effort for allocation purposes totaled \$70,554 or 0.20% of the total expected contribution effort. The Town has recognized this amount as an on-behalf payment into the TRS as intergovernmental revenues and related education expenditures of the General Fund for the year ended June 30, 2019.

The components associated with the collective OPEB expense and deferred outflows and inflows of resources for the TRS have been determined based on the fiduciary net position as audited by the State of Connecticut Auditors of Public Accounts as part of the State of Connecticut's Comprehensive Annual Financial Report as of and for the year ended June 30, 2018. The portion of the collective negative OPEB expense allocated to the Town totaled \$(1,747,329).

The total collective net OPEB liability of participating employers for the TRS was approximately \$2.632 billion as of the June 30, 2018 measurement date. The portion attributed to the Town totaled \$5,260,000 or approximately 0.20% of the total collective net OPEB liability.

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2018 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Real Wage Growth	0.50%
Wage Inflation	3.25%
Salary Increase	3.25-6.50%, including inflation
Long-term Investment rate of return	3.00%, net of OPEB plan investment expense, including inflation

Mortality rates were based on the RPH-2014 White Collar table with employee and annuitant rates blended from ages 50 to 80, projected to the year 2020 using the BB improvement scale.

Long-Term Rate of Return

The long-term expected rate of return on plan assets is reviewed as part of the actuarial valuation process. Several factors are considered in evaluation the long-term rate of return assumption, including the Plan's current asset allocations and a long-normal distribution analysis using the best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) for each major asset class.

The long-term expected rate of return was determined by weighing the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
U.S. Treasuries (Cash Equivalents)	100.0%	0.27%

Discount Rate

The discount rate used to measure the total OPEB liability was 3.87%. The projection of cash flows used to determine the discount rate was performed in accordance with the applicable standards. The projection's basis was an actuarial valuation performed as of June 30, 2018. In addition to the actuarial methods and assumptions of the June 30, 2018 actuarial valuation, the following actuarial methods and assumptions were used in the projection of cash flows:

- Total payroll for the initial projection year consists of the payroll of the active membership present on the valuation date. In subsequent projection years, total payroll was assumed to increase annually at a rate of 3.25%.
- Employee contributions were assumed to be made at the current member contribution rate.
- Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- No future employer contributions were assumed to be made.

Based on those assumptions, the Plan's fiduciary net position was projected to be depleted in 2019 and, as a result, the Municipal Bond Index Rate was used in the determination of the single equivalent rate.

Proportionate Share of the Collective Net Pension Liability

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate - The following presents the proportionate share of the collective net OPEB liability attributed to the Town as of the June 30, 2018 measurement date, calculated using a discount rate of 3.87%, as well as what the proportionate share of the net OPEB liability attributed to the Town would be if it were calculated using a discount rate that is 1-percentage point lower (2.87%) or 1-percentage-point higher (4.87%) than the current rate:

NOTE 11 - RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts, theft of, damage to, or destruction of assets; errors or omissions; injuries to employees or acts of God for which the Town carries commercial insurance. Neither the Town nor its insurers have settled any claims which exceeded the Town's insurance coverage in any of the last three fiscal years. There have been no significant reductions in any insurance coverage from amounts in the prior year.

NOTE 12 - CONTINGENCIES

The Town has received state and federal grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for any expenditure disallowed under terms of the grant. Based on prior experience, Town management believes such disallowances, if any, will not be material.

NOTE 13 - SUBSEQUENT EVENT

In July 2020, the Town issued \$6,470,000 in general obligation bond anticipation notes. The notes are payable at coupon rate of 2.0% and a yield of 1.4% and mature on July 16, 2020. The proceeds from the notes will be utilized to provide short-term financing for authorized projects. The Town intends to permanently finance the project costs, net of grant reimbursements, through the issuance of general obligation bonds.

NOTE 14 - IMPACT OF NEW ACCOUNTING STANDARDS NOT YET EFFECTIVE

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The requirements of this statement are effective for the Town's reporting period beginning July 1, 2019. The Town is currently evaluating the potential impact of adopting this Statement on its financial statements.

In June 2017, the GASB issued Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this statement are effective for the Town's reporting period beginning July 1, 2020. The Town is currently evaluating the potential impact of adopting this Statement on its financial statements.

NOTE 14 - IMPACT OF NEW ACCOUNTING STANDARDS NOT YET EFFECTIVE (Continued)

In June 2018, the GASB issued Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*. The objective of this Statement are (a) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (b) to simplify accounting for interest cost incurred before the end of a construction period. The requirements of this Statement should be applied prospectively and are effective for the Town's reporting period beginning July 1, 2020. The Town does not expect this statement to have a material effect on its financial statements.

In August 2018, the GASB issued Statement No. 90, *Majority Equity Interests - An Amendment of GASB Statements No. 14 and No. 61*. The objectives of this statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. The requirements of this statement are effective for the Town's reporting period beginning July 1, 2019. The Town does not expect this statement to have a material effect on its financial statements.

In May 2019, the GASB issued Statement No. 91, *Conduit Debt Obligations*. The objectives of this statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. The requirements of this statement are effective for the Town's reporting period beginning July 1, 2021. The Town does not expect this statement to have a material effect on its financial statements.

NOTE 1 - STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE - BUDGET AND ACTUAL - BUDGETARY BASIS - GENERAL FUND

Budgetary Information

The General Fund is the only fund for which an annual budget is legally adopted. The Town adheres to the following procedures in establishing the budgetary data included in the General Fund financial statements.

- The Board of Selectmen, Board of Education and the Board of Finance prepare an operating budget for the fiscal year commencing July 1 which is presented at the annual Town meeting for approval or submitted to referendum. The operating budget includes proposed expenditures and the means of financing them.
- Expenditures are budgeted by function, department and object. The legal level of budget control is the department level. The Board of Finance is authorized to transfer budgeted amounts within and between departments and objects for amounts not exceeding \$20,000 or representing a second transfer to a department. Additional appropriations in excess of \$20,000 must be approved at a Town meeting. During the year, the Board of Finance and Town meetings approved additional appropriations from fund balance of \$61,572.
- Formal budgetary integration is employed as a management control device during the year.
- The budget is prepared on a basis consistent with accounting principles generally accepted in the United States of America, except for intergovernmental revenues and encumbrances. Intergovernmental revenues and other reimbursement for certain costs are recorded as reductions to expenditures for budgetary purposes and "on-behalf" payments made by the State of Connecticut into the State Teachers' Retirement System are not recorded for budgetary purposes. Encumbrances are recognized as a valid and proper charge against a budget appropriation in the year in which the purchase order, contract or other commitment is issued and, accordingly, encumbrances outstanding at year-end are reported in budgetary reports as expenditures of the current year.
- All unexpended appropriations lapse at year-end, except those for capital projects funds. Appropriations for capital projects are continued until completion of applicable projects, even when projects extend more than one fiscal year.

NOTE 1 - STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE - BUDGET AND ACTUAL - BUDGETARY BASIS - GENERAL FUND *(Continued)*

As described above, accounting principles applied for purposes of developing data on a budgetary basis differ from those used to present financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP basis"). A reconciliation of General Fund amounts presented on the budgetary basis to amounts presented on the GAAP basis is as follows for the year ended June 30, 2019:

	Total Revenues	Total Expenditures	Other Financing Uses	Net Change In Fund Balance
Budgetary basis	\$ 22,806,634	\$ 21,846,830	\$ (652,008)	\$ 307,796
"On-behalf" payments - State Teachers' Retirement Fund	2,613,524	2,613,524	-	-
Change in encumbrances	-	91,054	(21,502)	(112,556)
GAAP basis	<u>\$ 25,420,158</u>	<u>\$ 24,551,408</u>	<u>\$ (673,510)</u>	<u>\$ 195,240</u>

NOTE 2 - SCHEDULE OF THE TOWN'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY - CONNECTICUT STATE TEACHERS' RETIREMENT SYSTEM

The Town began to report this schedule when it implemented GASB Statement No. 68, *Accounting and Financial Reporting for Pensions - An Amendment of GASB Statement No. 27*, in fiscal year 2015. GASB Statement No. 68 requires the information within this schedule to be presented for the ten most recent fiscal years.

Actuarial valuations are prepared every two years with the most recent available actuarial valuation performed as of June 30, 2018. This information is utilized by the Town for reporting as of June 30, 2019.

Benefit Changes - There have been no changes in benefit terms that have had a significant effect on the measurement of the total pension liability.

Assumption Changes - The following assumption changes had a significant effect on the measurement of the total pension liability reported as of June 30, 2019.

- o the inflation assumption was reduced from 2.75% to 2.50%;
- o the real rate of return assumption was reduced from 5.25% to 4.40%, which when combined with the inflation assumption change, results in a decrease in the investment rate of return assumption from 8.00% to 6.90%; and
- o the annual rate of wage increase assumption was increased from 0.50% to 0.75%.

NOTE 3 - SCHEDULE OF CHANGES IN TOTAL OPEB LIABILITY - OTHER POST-EMPLOYMENT BENEFITS PLAN

The Town began to report this schedule when it implemented GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pension*, in fiscal year 2018. GASB Statement No. 75 requires the information within this schedule to be presented for the ten most recent fiscal years.

Actuarial valuations are prepared every two years with the most recent available actuarial valuation performed as of July 1, 2018. The July 1, 2018 actuarial valuation was rolled forward to the most recent measurement date of June 30, 2019.

Benefit Changes - There have been no changes in benefit terms that have had a significant effect on the measurement of the total OPEB liability.

Assumption Changes - There have been no changes in assumptions that have had a significant effect on the measurement of the total OPEB liability.

NOTE 4 - SCHEDULE OF THE TOWN'S PROPORTIONATE SHARE OF THE NET OTHER POST-EMPLOYMENT BENEFITS LIABILITY - CONNECTICUT STATE TEACHERS' RETIREMENT SYSTEM

The Town began to report this schedule when it implemented GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pension*, in fiscal year 2018. GASB Statement No. 75 requires the information within this schedule to be presented for the ten most recent fiscal years.

Actuarial valuations are prepared every two years with the most recent available actuarial valuation performed as of June 30, 2018. This information is utilized by the Town for reporting as of June 30, 2019.

Benefit Changes - Effective July 1, 2018, the Plan changed the "base plan" to the Medicare Advantage Plan for the purposes of determining retiree health care plan subsidies and/or cost sharing amount(s), and introduced a two year waiting period for re-enrollment in a system-sponsored health care plan for those who cancel their coverage or choose not to enroll in a health care coverage option on or after the effective date.

Assumption Changes - The following assumption changes collectively had a significant effect on the measurement of the net OPEB liability reported as of June 30, 2018:

- o the expected rate of return on Plan assets was changed from 4.25% to 3.00% to better reflect the anticipated returns on cash and other high quality short-term fixed income investments;
- o the discount rate used to measure Plan obligations and amortize supplemental costs was updated to match the expected rate of return on assets selected as of June 30, 2018;
- o long-term health care cost trend rates were updated to better reflect the anticipated impact of changes in medical inflation, utilization, leverage in the plan design, improvements in technology, and fees and charges on expected claims and retiree contributions in future periods; and
- o the percentage of retired members who are not currently participating in the Plan, but are expected to elect coverage for themselves and their spouses under a system-sponsored health care plan option in the future was updated to better reflect anticipated plan experience.
